## Current membership charges for pallet & packaging manufacturers

PalletLink subscription charges are good value because we don't have to buy-in outside technical help; we have it 'in-house'. Subscription rate for pallet & packaging manufacturers is linked to turnover and we charge from the month you join for a 12 month period. Subscription rate does not depend on amount of use of our hotline.

There is no selection procedure for *Members* and no joining or exit fee. Packaging suppliers to the industry (eg. timber suppliers, composite block or nail suppliers) join as *Associate Members*. Non-manufacturers e.g. Pallet buyers/pallet users/pallet-pools may join as *Associates* where subscriptions are shown in the open web-page above. Your subscription lasts a full 12 months from the 1st day of the month you join. Our current charges\* for *Members* are:-
